## DETAILED ACTION

### *Response to Amendment*

1. This office action is in response to the applicants communication received on August 16, 2006.
2. Claims 1-21 are presented for examination.
3. The applicants have amended claim 1 in the amendment received on August 16, 2007. The amendment received on August 16, 2007 has not cancelled or added any new claims.
4. The applicants' arguments with respect to claims 1-21 have been considered but are deemed to be moot in view of the new grounds of rejection.

### *Claim Rejections - 35 USC § 112*

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
7. The metes and bounds of the method of the claim limitations of claim 1 are unclear. In the steps of the method of claim 1 the limitations of these claims do not actually comprise elements within the body of the claim limitations following the **comprising** step to produce (1) a **selection** of one or more pieces of secret information

as being stated and enabled in the preamble of the limitations of claim 1; (2) and a decryption and encryption function.

It is the opinion of the Examiner that after the preamble of "the method comprising the steps of:", the applicants should consider adding steps that include (1) **selecting**, (2) **encrypting**, and (3) **decrypting**.

These steps should be added because the preamble of claim 1 states that a **selection, encryption and decryption function** of the secret information is being performed, however the body of the text of the claim limitations do not include any of these functions. The body of the text of the claim limitations of claim 1 only include a **receiving** and **response** of the secret information.

The remaining claims are dependent claims. These claims are also rejected for being dependent on the above rejected independent claim.
